Attention: Deidre McGowan

Dear Deidre

Mainfreight Logistics at 107 Westney Rd, Mangere used the services of Oaktree Labour Hire from early 2006 to early 2008 for container devanning.

We found their service to be timely, accurate and professional. Their team members were good solid performers who worked hard and fitted in well with the rest of our team.

The support and communication at management level was always strong which made managing the relationship easy and ultimately a pleasure.

Due to the necessity for us to grow our own devanning service we have stopped using Oaktree but given their fine record we will maintain Oaktree as a back up should we require outside services again.

We wish them all the very best in their future endeavours.

Yours sincerely
